

On 30th July, NSS seminar was held at the BSAEU Main Campus for member of NSS, B.Ed college's 4th semester students. The event started at 11:30 AM with the registration of participants, involving students from 51 colleges affiliated with this university. The seminar's primary theme was "Experiential Learning on Cyber Security and Training on Knowledge Institutions," aiming to enhance students' understanding and practical skills related to digital security in educational contexts.

The first half of the seminar took place from 1:00 PM to 2:30 PM and was conducted by a representative officer from the Cyber Security Cell of Lal Bazar Police Station. During this session, the officer provided comprehensive insights into various cyber threats such as phishing, data theft, hacking, and identity fraud. Practical demonstrations and real-life examples were used to help students identify cyber-attacks and understand effective prevention techniques. This interactive session greatly increased the participants' awareness of digital safety and cybercrime detection.

The second half, held from 3:00 PM to 5:00 PM, was led by the Directorate of NSS for the Kolkata region. This segment focused on the importance of experiential learning methods in cyber security training within knowledge institutions. Students were encouraged to adopt pro-active roles as ambassadors of cyber safety in their future teaching professions. The session emphasized strategies to implement robust cyber security measures in schools and colleges, integrating theoretical knowledge with practical experience.

Overall, the seminar proved to be a highly effective platform, enriching students with both technical knowledge and practical training essential for safe guarding educational institutions in the digital age.
